

LITHUANIA

OVERVIEW OF OPTIONS

Over 350 study programmes (close to 400 now) are taught in English.

PROGRAMMES AVAILABLE

www.studyin.lt/study-programmes/ (All through English)

www.bakalauras.lamabpo.lt/international-and-eu-students/list-study-programmes/ (all options)

The most popular study programmes are in social sciences, business, and engineering. Also, a lot of students from the EU choose Medicine, Dentistry or Veterinary Medicine studies. For example, there were 17 students from Ireland, 45 students from the UK, 54 students from Spain, 110 students from Germany, and 185 students from Sweden studying at Lithuanian University of Health Sciences in 2018/2019 academic year.

Diplomas received from any Lithuanian university and university of applied sciences are recognised across Europe.

FEE INFORMATION

Fees vary depending on the institution and course of choice.

On average, the studies in Lithuania cost from 1.300 EUR per year for Bachelor studies

www.studyin.lt/how-to-apply/tuition-fees/

www.studyin.lt/scholarships/

Fees for courses such as e.g.: Dentistry will be significantly higher.

The citizens of the European Union can apply for state funded place at the university of their choice and study in Lithuania for free.

More information about this opportunity as well as the information on the qualification recognition can be found here: www.bakalauras.lamabpo.lt/international-and-eu-students/holders-of-foreign-qualifications/

APPLICATION PROCESS

The deadlines to apply for the autumn semester at most universities are in June, however, international students are strongly advised to apply as early as possible.

Each university is a separate institution, therefore each one has a different set of requirements and admits students through a separate application process.

The requirements and admission fees vary from university to university largely depending on the chosen study programme.

Generally, all applicants must upload the documents that prove their previous education. For bachelor's and integrated studies a school (secondary or equivalent) graduation certificate and marks sheet/list (academic transcript) are required.

Also, a student might be asked to upload a letter of motivation, and language proficiency certificate (not required for native English speakers). If a student applies to Medicine or Dentistry programmes, they will have to upload their SAT or MCAT certificates as well. Some programmes (e.g. Arts, Architecture) might require passing an entry exam or submitting a portfolio of drawings and sketches.

In general, the procedures are similar for those who wish to study through English and those who wish to study through Lithuanian.

IMPORTANT DATES

The deadlines to apply for the autumn semester at most universities are in May/July, however, international students are strongly advised to apply as early as possible.

Each university is a separate institution, therefore each one has a different set of requirements and admits students through a separate application process.

Several universities, such as Klaipeda University or LCC International University, have spring intakes as well, but not for all study programmes.

GENERAL ENTRY REQUIREMENTS

A high school diploma (Leaving Certificate) is a basic general requirement.

Applicants with Irish access qualifications are required to submit Leaving Certificate (if the final certificate has not been issued yet, then Statement of Results or Statement of Provisional Results are accepted) that attests to at least 5 passes in Leaving Certificate examinations with grades not lower than D3 (grading system until 2017) or Ordinary Level 6/ Higher level 7 (grading system after 2017).

You can also find general documentation requirements for Ireland on www.skvc.lt/default/en/60/apply/country-specific#Ireland.

Different institutions and courses will require certain grades (e.g. 2 H4s) or specific subjects' grades (e.g. Specific science subjects) depending on the chosen field of study as well as a letter of motivation/ entrance exam.
